How to analyse your report

In most instances scores are very high. However, no quick assumptions or conclusions should be drawn from low scores until reasons have been explored. Below is a list of possible reasons for low scores. These have been provided for discussion and reflection. There may well be many other reasons for low scores not included in this list, but many of the more common reasons have been included.

Possible Reasons for Low Scores.

These are listed with no particular weighting: -

- Workload
- Technical support
- Team/Trust failure
- Suitability of selected raters
- Staff shortages
- Specialty
- Personality clashes
- Personal problems / illness
- Patient case load
- Lack of training
- Lack of skills/knowledge
- Lack of information
- Lack of feedback
- Lack of awareness
- Keeping up to date
- Job structure/job role
- Honesty
- Equipment availability/failure
- Cultural issues
- Confidence
- Communication skills
- Awareness of own limitations
- Attitude
- Other (investigate)

Facilitator Feedback Notes

Feeding back the contents of the 360 report to your colleague

Introduce the feedback session and describe your role as a facilitator to encourage reflection and personal development planning. If appropriate, consider setting some ground rules, such as confidentiality.

Seek your 360 doctor's views first - Ask questions rather than make statements.

If your 360 doctor has low scores in a particular area, do not make assumptions. There are many reasons for low scores some of which are detailed on the previous page. Low scores may be a result of workload or staff shortages. Of course, low scores may also be due to personal competence.

If there are clusters of raters scoring below average/unacceptable, the Medical Director should be informed.

Seek 360 doctors views first: -

- What went well and why?
- What didn't go so well? and why?
- What changes would you like to see in the future?
- How will these changes be implemented?
- What will happen to reassess / monitor improvements?

Concentrate on specific areas which cause most concern e.g. high variance between self and colleagues assessments. Then focus on specific items of behaviour.

Compliment on the areas where the individual scored highly as well as address areas for improvement. Encourage the individual to build on their strengths. The graphic quantitative feedback report allows you to discuss current, sensitive issues in a direct manner. The feedback interview should be held in private, avoiding interruptions.

Stick to the facts and always avoid becoming emotional or using emotional language. For example, if a doctors has a low score in communication skills you might say 'you have scored below average to unacceptable in the communication skills element please comment on that?' instead of "you didn't do very well in communication skills did you?"

"A valued member of the IR team"

"Dr Martinez is passionate about her work and displays empathy towards dealing with patients. She keeps herself upto date with her knowledge and is always reliable."

"Professional Development: Strong commitment, this DR is often in the hospital planning for the following day after paid hours, and before.

Reliability: Always arrives for the ultrasound lists, and is willing to help out colleagues as necessary.

Verbal Communication: Positive communication with patients and colleagues.

Empathy and Respect: This DR goes out of her way to bond with her ultrasound colleagues and is a joy to work out of hours with.

Team Player: Always available to provide advice on complicated ultrasound cases."

"Dr Martinez is very helpful and is always available to help and support when asked. Her clinical experience and enthusiasm for teaching is outstanding.

She is easily approachable and is an important team player."

"Dr Martinez has settled in well and has become a valued colleague. She has done well to overcome the challenges of working in a new environment and is happy to take on new tasks."

"I do not work in a clinical role with Dr Martinez. I am her Medical Secretary, hence I am unable to provide feedback from a clinical perspective."

"This is a first 360 for a new consultant. I have not worked with her closely in a clinical setting.

Claudia is friendly and approachable , has asked for advice and help when she felt she needed it."

"Claudia on occasion has struggled with some of the interventional cases she has been involved with but has shown a commendable willingness to learn new skills and expand her knowledge base. She is becoming a valued member of the IR Team at NGH."

"Dr. Martinez is a very good colleague. Very happy to help others. Keeps clinical knowledge upto date and is a good team player."

"Dr. Martinez is very hard working and efficient doctor."

"Dr Martinez is a very approachable member of the team, she is very keen to take on extra work and cover extra lists for a sickness etc.

Dr martinez is also very keen to spread knowledge throughout our team!"

"Whenever there is a need for assistance Claudia is one of the first people to offer to help. Her empathy and compassion
